Retention of cast endodontic posts: comparison of cementing agents (Radke et al). 1988;59:318-20
Shear bond strengths and scanning electron microscope evaluation of three different retentive methods for resin-bonded retainers (Re et al). 1988;59:568-73
Stabilizing functionally generated path recording tables (Guinn and Christensen). 1988;59:518 (Tips)
Prosthodontics
Need and effective demand for prosthodontic treatment (Douglass et al). 1988;59:94-104
Pulp; *see also* **Endodontics**
Report of the Committee on Scientific Investigation of the American Academy of Restorative Dentistry (Jendresen et al). 1988;59:706-9
Pumice
Boxing the altered cast impression for the dentate obturator by using plaster and pumice (Martin et al). 1988;59:382-4

R

Radiation effects
A study of factors contributing to the development of osteoradionecrosis of the jaws (Kluth et al). 1988;59:194-201
Radiochemistry
Long-term monitoring of microleakage of dental cements by radiochemical diffusion (Powis et al). 1988;59:651-6
Radiography
Bone resorption around fixtures in edentulous patients treated with mandibular fixed tissue-integrated prostheses (Lindquist et al). 1988;59:59-63
Lateral transcranial radiography of temporomandibular joints. Part I: validity in skulls and patients (Preti and Fava). 1988;59:85-93
Lateral transcranial radiography of temporomandibular joints. Part II: image formation studied with computerized tomography (Fava and Preti). 1988;59:218-27
Radiography, panoramic
Orthopantomographic examination of the edentulous mouth (Axelsson). 1988;59:592-8

Resins
Clinical evaluation of etched-metal resin-bonded fixed partial dentures (Mohl et al). 1988;59:403-4
Correction of the posterior palatal seal by using a visible light-cured resin: a clinical report (Nimmo). 1988;59:529-31
Curing contraction of composites and glass-ionomer cements (Feilzer et al). 1988;59:297-300
Determination of demand for posterior resin restorations (Davis et al). 1988;59:242-8
The dimensional accuracy of improved dental stone, silverplated, and epoxy resin die materials (Bailey et al). 1988;59:307-10
The effect of a cavosurface bevel on microleakage in posterior composite restorations (Moore and Vann). 1988;59:21-4
The effect of finishing resin-bonded fixed partial dentures on postcementation tensile strength (Caughman et al). 1988;59:149-53
Effect of provisional cementing agents on provisional resins (Rosenstiel and Gegauff). 1988;59:29-33
The effect of resilient layer and occlusal reactive complete dentures on the residual alveolar ridge (ElCharkawi and ElMahdy). 1988;59:598-602
Evaluation of resin-bonded retainers with the scanning electron microscope (Ferrari et al). 1988;59:160-5
Resins—cont'd
Fabrication of an alloplastic implant for the cranial defect (Aquilino et al). 1988;59:68-71
A four-year clinical evaluation of resin-bonded fixed partial dentures (Priest and Donatelli). 1988;59:542-6
Gold-plating etched-metal surfaces of resin-bonded retainers (Livaditis and Tate). 1988;59:153-8
Influence of thickness, boxing, and storage on the softness of resilient denture lining materials (Kazanji and Watkinson). 1988;59:677-80
Interfacial bond strengths between layers of visible light-activated composites (Tjan and Glancy). 1988;59:25-9
A laboratory evaluation of rebond strengths of solid retainers of the acid-etched fixed partial denture (Naifeh et al). 1988;59:583-7
Mechanical and chemical retention of laboratory cured composite to metal surfaces (Barzilay et al). 1988;59:131-7
Metal cingulum and loop technique for retaining resin base material and mandibular incisors (Kaplan). 1988;59:111-3
A new electromechanical device to measure the accuracy of interocclusal records (Assif et al). 1988;59:672-6
A new visible light-cured composite for modification of fixed partial dentures (Mullick et al). 1988;59:274-6
Overcontouring in resin-bonded prostheses: plaque accumulation and gingival health (Creugers et al). 1988;59:17-21
A quantitative study of finishing and polishing techniques for a composite (Chen et al). 1988;59:292-7
Report of the Committee on Scientific Investigation of the American Academy of Restorative Dentistry (Jendresen et al). 1988;59:715-7
Resin-bonded components for maxillofacial prosthesis construction: a clinical trial (Taylor et al). 1988;59:334-9
A reverse buildup technique using light-cured composite (Tarlow). 1988;59:249-50
Shear bond strengths and scanning electron microscope evaluation of three different retentive methods for resin-bonded retainers (Re et al). 1988;59:568-73
Simple application of anterior jig or leaf gauge in routine clinical practice (Carroll et al). 1988;59:611-7
Stabilizing functionally generated path recording tables (Guinn and Christensen). 1988;59:518 (Tips)
A technique for removal of etched metal resin-bonded fixed partial dentures (Zena and Khan). 1988;59:118 (Tips)
Tensile strengths of composite core materials containing added colorants (Netti et al). 1988;59:547-52
Three-year findings of a multiclinical trial for a posterior composite (Norman et al). 1988;59:577-83
Wear rates of composites, an amalgam, and enamel under stress bearing conditions (Pallav et al). 1988;59:426-9
Restoration, permanent
All-porcelain anterior fixed partial denture: a preliminary report (Schaffer). 1988;59:669-71
Bonding of amalgam to tooth structure: tensile adhesion and microleakage tests (Staninec and Holt). 1988;59:397-402
Continuous brushing acid-etch technique and microleakage of class V composite restorations (Ben-Amar et al). 1988;59:573-6
Determination of demand for posterior resin restorations (Davis et al). 1988;59:242-8
A dynamic method for assessing the occlusal reduction of preparations (Saravanamuttu). 1988;59:116-7 (Tips)
The effect of a cavosurface bevel on microleakage in posterior composite restorations (Moore and Vann). 1988;59:21-4
Gold-plating etched-metal surfaces of resin-bonded retainers (Livaditis and Tate). 1988;59:153-8
Improved color matching of metal-ceramic restorations. Part III: innovations in porcelain application (Sorensen and Torres). 1988;59:1-7
Marginal adaptation of porcelain margins in ceramometal restorations (Arnold and Aquilino). 1988;59:409-17
Preparation modification for posterior ceramometal restorations with porcelain occlusal surfaces (Pipko and Hadeed). 1988;59:385 (Tips)
Restoration, temporary
Direct provisional restoration technique (Deines). 1988;59:395-7

Restoration, temporary—cont'd
Effect of provisional cementing agents on provisional resins (Rosenstiel and Gegauff). 1988;59:29-33
A technique for visible light-cured provisional restorations (Haddix). 1988;59:512-4
Rest vertical dimension; *see* **Vertical dimension**
Roentgenography; *see* **Radiography**

S

Saliva
The influence of removable partial dentures on the level of *Streptococcus mutans* in saliva (Mihalow and Tinanoff). 1988;59:49-51
Seals
Correction of the posterior palatal seal by using a visible light-cured resin: a clinical report (Nimmo). 1988;59:529-31
Seating
Incomplete seating of cemented crowns: a literature review (Pilo et al). 1988;59:429-33
A modified box seat technique for removable dies (Zena and Khan). 1988;59:633-5
Self-concept
Patient satisfaction with current dental condition related to self-concept and dental status (Gordon et al). 1988;59:323-7
Serum globulins
The effect of fixed partial dentures made of silver-palladium alloy on serum immunoglobulins IgA, IgG, and IgM (Vitsentzos et al). 1988;59:587-9
Sex determination
Estimating age and sex by using color, form, and alignment of anterior teeth (Burchett and Christensen). 1988;59:175-9
Shock waves, ultrasonic; *see* **Ultrasonics**
Signal interpretations, computer-assisted; *see* **Diagnosis, computer-assisted**
Silicones
Effect of contaminants on the adhesion of light-bodied silicones to putty silicones in putty-wash impression technique (Tjan). 1988;59:562-7
Silicopolyacrylate cement; *see* **Glass ionomer cements**
Silver
The dimensional accuracy of improved dental stone, silverplated, and epoxy resin die materials (Bailey et al). 1988;59:307-10
The effect of fixed partial dentures made of silver-palladium alloy on serum immunoglobulins IgA, IgG, and IgM (Vitsentzos et al). 1988;59:587-9
The effect of recasting on the oxidation layer of a palladium-silver porcelain alloy (Hong et al). 1988;59:420-5
Effects of cooling methods on silver-palladium castings (Jochen et al). 1988;59:311-4
Skull
Fabrication of an alloplastic implant for the cranial defect (Aquilino et al). 1988;59:68-71
Lateral transcranial radiography of temporomandibular joints. Part I: validity in skulls and patients (Preti and Fava). 1988;59:85-93
Lateral transcranial radiography of temporomandibular joints. Part II: image formation studied with computerized tomography (Fava and Preti). 1988;59:218-27
Response patterns of craniomandibular muscles with and without alterations in sensory feedback (Nielsen and Miller). 1988;59:352-362
Smoking
A study of factors contributing to the development of osteoradionecrosis of the jaws (Kluth et al). 1988;59:194-201
Soldering
Restoring retention form to rimmed trays (Williams and Trebilcock). 1988;59:119 (Tips)
Single appointment intraoral repair of a broken solder joint (Tebrock). 1988;59:517 (Tips)
Splints, periodontal; *see* **Periodontal splints**
Sterilization
Corrosion of dental burs in sterilizing and disinfecting solutions (Bapna and Mueller). 1988;59:503-11
Sterilization—cont'd
The dentist and AIDS (Moore). 1988;59:236-42
An overview of infection control in dental practice (Runnells). 1988;59:625-9
Stomatognathic system
Occlusal equilibration and other stomatognathic treatment in patients with mandibular dysfunction and headache (Wenneberg et al). 1988;59:478-83
Streptococcus mutans
The influence of removable partial dentures on the level of *Streptococcus mutans* in saliva (Mihalow and Tinanoff). 1988;59:49-51
Stress, mechanical
Centric relation and the treatment position in rehabilitating occlusions: a physiologic approach. Part I: developing an optimum mandibular posture (Wood). 1988;59:647-51
Photoelastic stress analysis of supporting alveolar bone as modified by nonrigid connectors (Moulding et al). 1988;59:263-74
Porous alumina for free-standing implants. Part I: implant design and in vivo animal studies (Yamagami et al). 1988;59:689-95
Wear rates of composites, an amalgam, and enamel under stress-bearing conditions (Pallav et al). 1988;59:426-9
Surgery, periosteum
Use of computer tomography in subperiosteal implant therapy (Truitt et al). 1988;59:474-7
Surgery, oral; *see also* **Implantation**
A surgical template for aligned placement of the osseointegrated implant (Johnson et al). 1988;59:684-8
Surgery, oral, preprosthetic
Presurgical prosthodontics (Murrell and Davis). 1988;59:447-52
Syringes
Syringe technique for placement of visible light-curing bases in conservative cavity preparations (Schulein). 1988;59:385-6 (Tips)
Use of a modified reversible hydrocolloid syringe for stick modeling compound (Mullick et al). 1988;59:113-5

Effects of cooling methods on silver-palladium castings (Jochen et al). 1988;59:311-4
Temperature rise produced by various visible light generators through dentinal barriers (Tjan and Dunn). 1988;59:433-8
Templates
A surgical template for aligned placement of the osseointegrated implant (Johnson et al). 1988;59:684-8
Temporal muscle
Maxillary splint occlusal guidance patterns and electromyographic activity of the jaw-closing muscles (Graham and Rugh). 1988;59:73-7
Temporomandibular joint; *see also* **Jaw**
Anatomic relations of the medial aspect of the temporomandibular joint (Friedman). 1988;59:495-8
Lateral transcranial radiography of temporomandibular joints. Part II: image formation studied with computerized tomography (Fava and Preti). 1988;59:218-27
Temporomandibular joint diseases
Initial studies of a new assessment method for temporomandibular joint disorders (Levitt et al). 1988;59:490-5
Lateral transcranial radiography of temporomandibular joints. Part I: validity in skulls and patients (Preti and Fava). 1988;59:85-93
Neglected patients in temporomandibular joint dysfunction reports (Smith). 1988;59:78-80
Report of the Committee on Scientific Investigation of the American Academy of Restorative Dentistry (Jendresen et al). 1988;59:722-6
A survey of temporomandibular joint dysfunction in completely edentulous patients (Sakurai et al). 1988;59:81-5

Temporomandibular joint diseases—cont'd
Temporomandibular disorders. Part III: occlusal and articular factors associated with muscle tenderness (Seligman et al). 1988;59:483-9
Temporomandibular joint diseases, classification
Evaluation of temporomandibular joint disorders by clinician ratings (Lundeen et al). 1988;59:202-11
Temporomandibular joint diseases, etiology
Temporomandibular disorders. Part II: occlusal factors associated with temporomandibular joint tenderness and dysfunction (Pullinger et al). 1988;59:363-7
Temporomandibular joint diseases, occurrence
Temporomandibular disorders. Part I: functional status, dentomorphologic features, and sex differences in a nonpatient population (Pullinger et al). 1988;59:228-35
Tensile strength
Bonding of amalgam to tooth structure: tensile adhesion and microleakage tests (Staninec and Holt). 1988;59:397-402
Effect of contaminants on the adhesion of light-bodied silicones to putty silicones in putty-wash impression technique (Tjan). 1988;59:562-7
The effect of finishing resin-bonded fixed partial dentures on postcementation tensile strength (Caughman et al). 1988;59:149-53
Evaluation of shear strength at the cement–endodontic post interface (Maniatopoulos et al). 1988;59:662-9
Evaluation of the fit and strength of an all-ceramic fixed partial denture (Campbell and Sozio). 1988;59:301-6
Interfacial bond strengths between layers of visible light-activated composites (Tjan and Glancy). 1988;59:25-9
A laboratory evaluation of rebond strengths of solid retainers of the acid-etched fixed partial denture (Naifeh et al). 1988;59:583-7
Metal-reinforced glass ionomers: their flexural and bond strengths to tooth substrates (Tjan and Morgan). 1988;59:137-41
Shear bond strengths and scanning electron microscope evaluation of three different retentive methods for resin-bonded retainers (Re et al). 1988;59:568-73
Tensile and peel bond strengths of tray adhesives (Grant and Tjan). 1988;59:165-8
Tensile strengths of composite core materials containing added colorants (Netti et al). 1988;59:547-52
Wear characteristics of high-strength denture teeth (von Fraunhofer et al). 1988;59:173-5
